DMIT

Dermatoglyphic is a branch of science that uses fingerprint analysis to understand humans better. It gives you a special glimpse into their characters, which aids in your understanding of them. Dermatoglyphic is based on knowledge from neuroscience, genetics, dermatoglyphics, psychology, and embryology. Scientists and medical experts who wished to assist people in better understanding their health developed the DMI Test. It has received acceptance from prestigious universities all across the world.

1

DMI Test helps in determining child's personality and acquiring style.

2

The DMI Test helps you discover your child's talents

3

Effective parenting helps to improve parent - child relationships.

4

DMI Test helps each child focus on his or her core competencies or innate traits.

POSITIVE PARENTING COURSE

Positive parenting is an approach that helps parents increase their self - awareness, and try to make a conscious effort to know what, how, and where, they want their children to be in the future. It encourages parents to participate in and support their children's physical, mental, and behavioral growth.

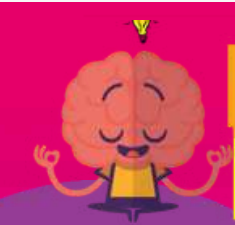

ABACUS

orphosys
education

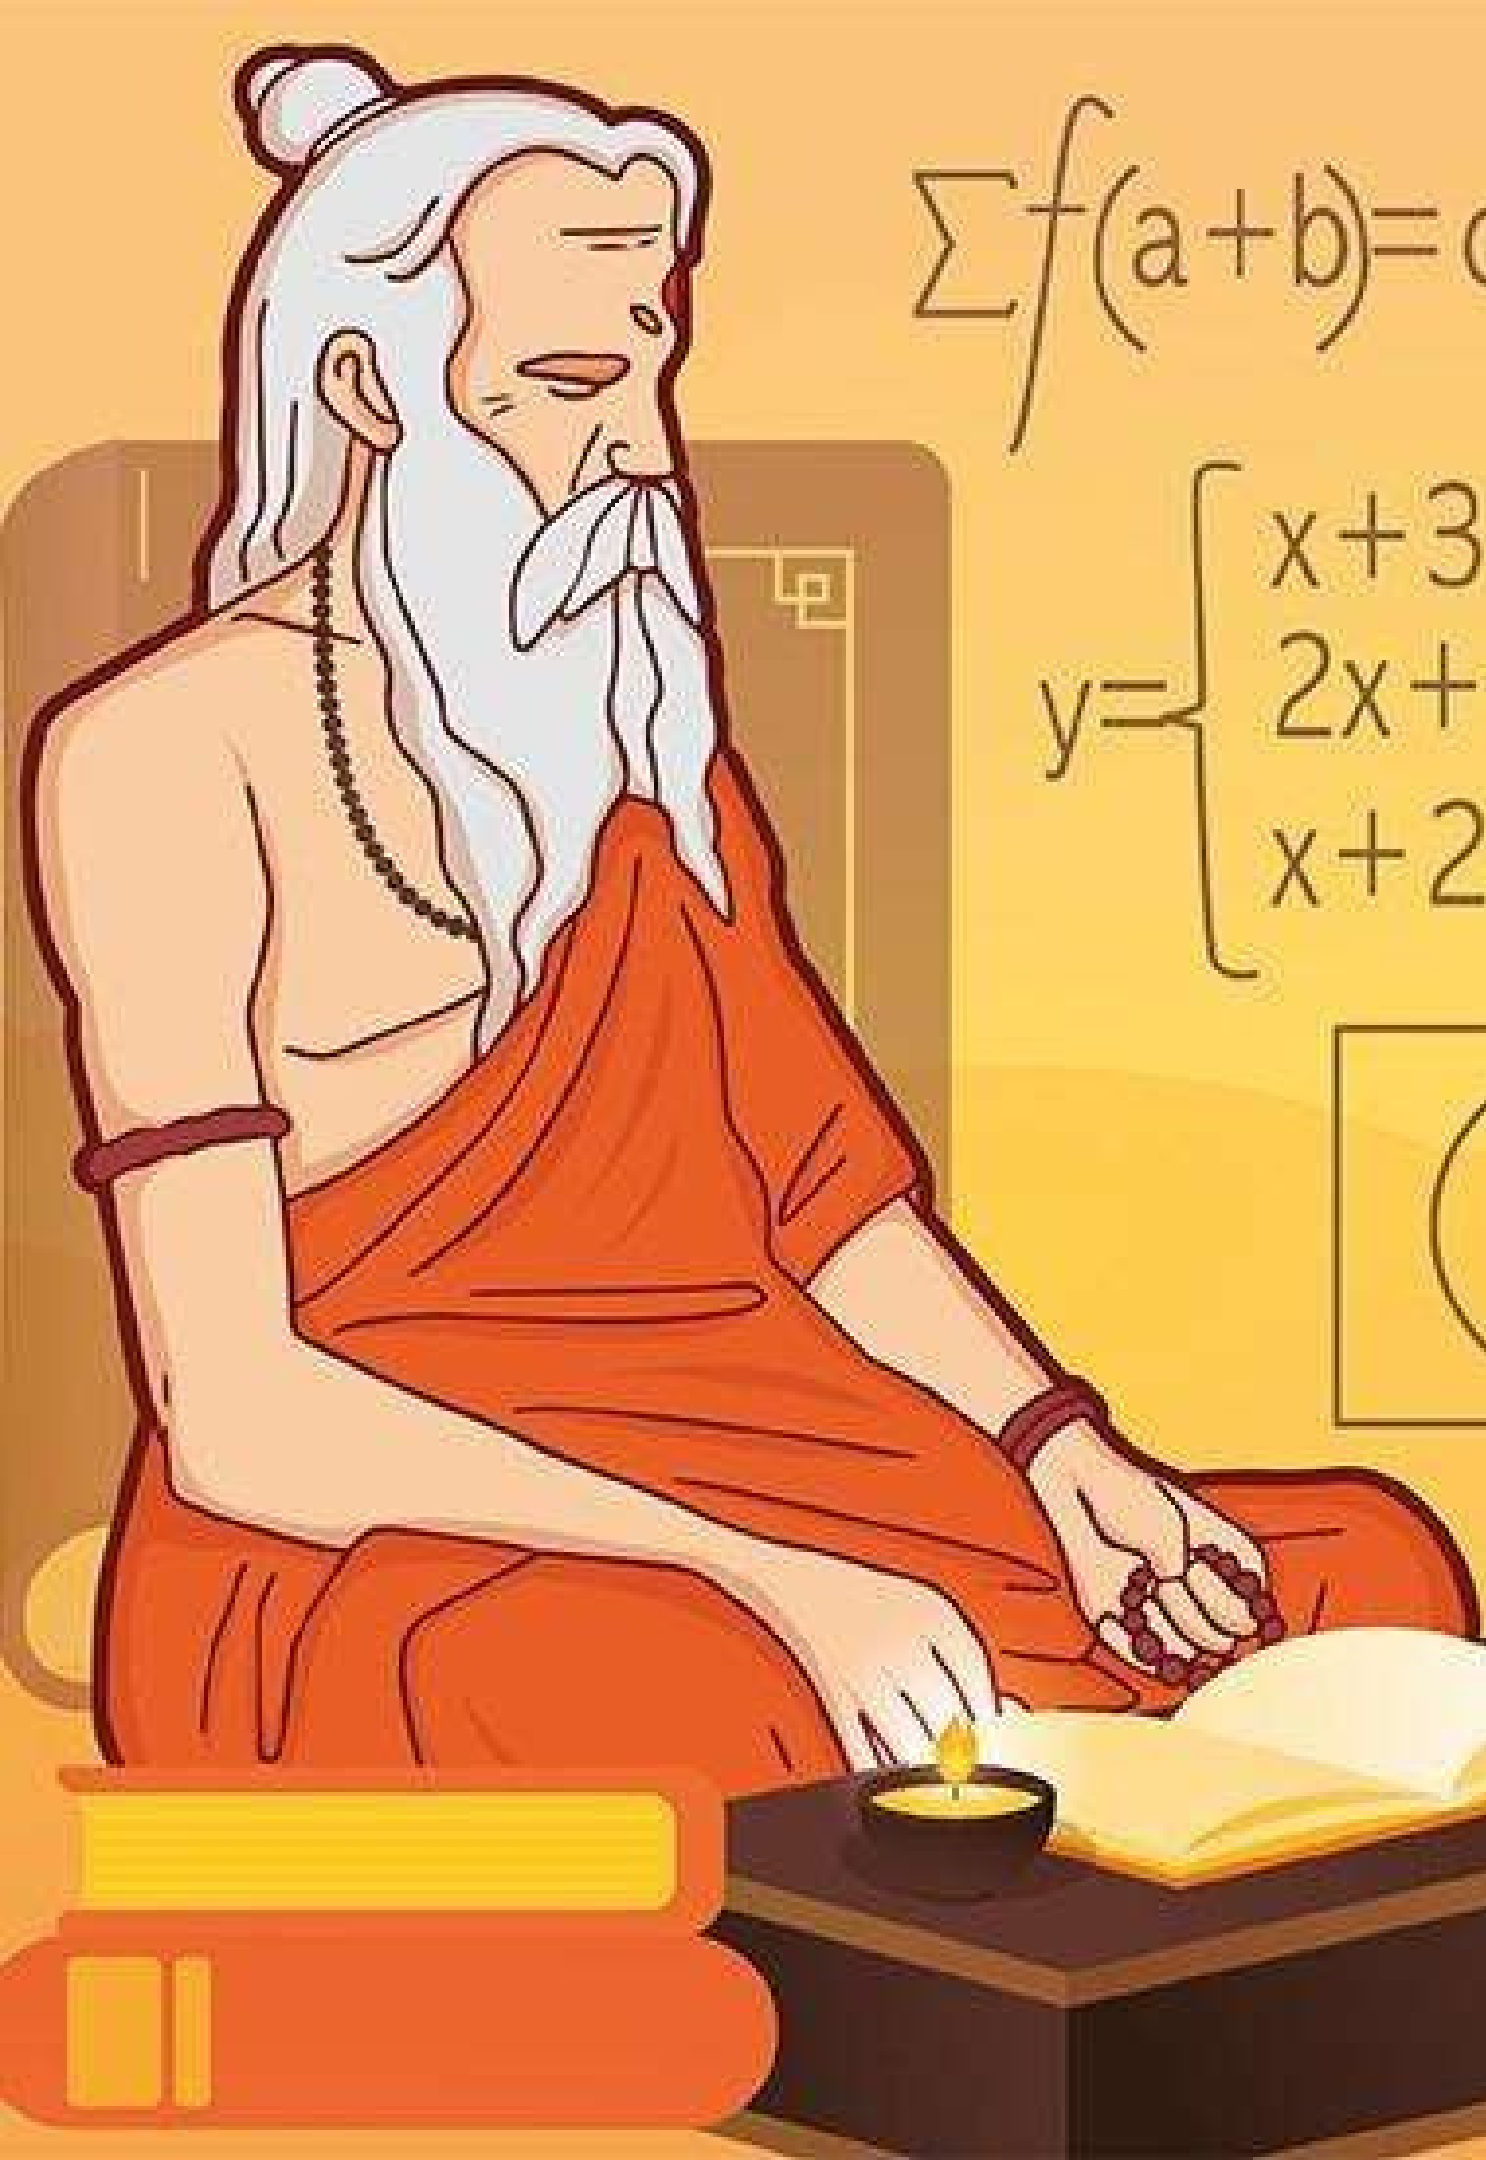

As we offer concept based training of Mental Arithmetic Program to get better results in terms of speed and accuracy. We render the service of Abacus Teacher Training According to the Topics for Teachers (Only Indian Company) to get Complete knowledge and expertise of that particular topic. We will give assurance of World's Class training with real - time exposure of class handling and business Training. We make leaders and equip the trainee with sound knowledge and leadership skills to lead from the front. We are committed to Quality Education with result-oriented Performance, We have designed content According to the 3age groups of Students to get better results. In Mental Arithmetic Education we are known for Quality Education

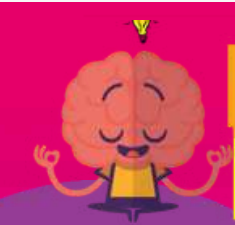

VEDIC MATH

Vedic Maths or Vedic Mathematics is a collection of Methods or Sutras to solve numerical computations quickly and faster.

It consists of 16 Sutras called Formulae and 13 sub-sutras called Sub Formulae, which can be applied to the solving of problems in arithmetic, algebra, geometry, calculus, conics, etc. All the sutras and sub - sutras of Vedic Maths help to perform mathematical operations quickly and accurately.

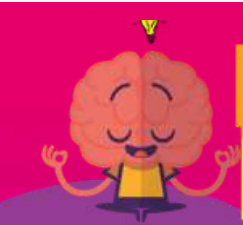

HANDWRITING IMPROVEMENT

Good handwriting contributes to reading fluency because it activates the visual perception of letters. Handwriting is a predictor of success in other subjects, because good handwriting has a positive impact on grades. Handwriting skills help children develop reading and spelling skills. It also helps with the ability to recall and remember information.

SPOKEN ENGLISH

Spoken English refers to the verbal communication of the English language, involving the use of words, phrases, and grammar to convey meaning and express thoughts, ideas, and opinions in real-time conversations. The benefits of spoken English are numerous, including enhanced career opportunities, improved social interactions, and increased confidence in personal and professional settings.

CHESS

Playing chess offers numerous benefits, including cognitive improvements such as enhanced critical thinking, problem-solving skills, and memory. It also fosters personal growth by developing patience, focus, and resilience. Additionally, chess provides social benefits like community building, improved communication skills, and sportsmanship. Furthermore, the strategic thinking and analytical skills developed through chess can translate to academic and professional success. Overall, playing chess can have a profound impact on one's cognitive, personal, and social development.
